Summary

Software Engineer specializing in the MERN stack with a proven ability to create scalable, responsive, and user-focused applications. Skilled in REST APIs, authentication, modern front-end frameworks, and cloud database integration.

Education

National University of Science and Technology (NUST) **Aug 2022 – Aug 2026**

Bachelor's degree, Software Engineering *Islamabad, Pakistan*

Experience

Web Developer **Aug 2023 – Present**

National University of Sciences and Technology (NUST)

- Developed responsive front-end interfaces using **React.js**, and implemented secure RESTful APIs with **Node.js** and **Express.js**.
- Used **MongoDB** for efficient storage and retrieval of event data, registrations, and user information.

Projects

TaskNest - Productivity Web App **Feb 2025**

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Built a full-stack task management platform enabling users to create, prioritize, and track to-do items.
- Implemented JWT-based authentication and role-based access control for secure user sessions.
- Integrated drag-and-drop task boards using React DnD for an intuitive UI.
- Employed Redux Toolkit to manage complex application state across user dashboards.

Pam England Sculpture Studio Website (Laravel) **Nov 2024**

Technologies: Laravel, PHP, MySQL, Blade, Bootstrap

- Developed a dynamic portfolio website for a sculpture artist using the Laravel framework.
- Integrated a MySQL database to manage sculpture listings, artist bio, and contact form submissions.
- Used Blade templating and Bootstrap to create a responsive, visually appealing frontend.
- Implemented admin dashboard for content management, enabling real-time updates of artwork details.

Spotify and Netflix Frontend Clones **Nov 2023**

Technologies: React.js, Tailwind CSS, JavaScript

- Recreated responsive UI clones of Spotify and Netflix with pixel-perfect layouts.
- Emulated dynamic components like horizontal scroll carousels, media previews, and navbar transitions.
- Practiced reusable component architecture and responsive styling using Tailwind CSS.

Skills

Frontend: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, MySQL

Tools: Git, GitHub, Render, Vercel, Postman, VSCode, Cloudinary

Others: JWT, bcrypt, Responsive Design
