Summary

Flutter Developer with proven expertise in building scalable, feature-rich applications. Proficient in state management, backend integrations, and delivering clean, industry-standard solutions across diverse domains.

Education

National University of Science and Technology (NUST) **Aug 2022 – Aug 2026**
Bachelor's degree, Computer Science *Islamabad, Pakistan*

Government College University (GCU), Lahore **Aug 2020 – Aug 2022**
Intermediate, Pre-Engineering *Lahore, Pakistan*

Experience

Code Next Solutions **Jul 2024 – Present**
Flutter Developer (Part-Time, Remote) *Islamabad, Pakistan*

- Revamped **MoltoVino**, a wine restaurant app, using **Clean Architecture**, **GoRouter**, **Bloc**, and **GetIt**, enabling secure payments and automated dispensers.
- Built a **Digital Signage App** for Android TVs, handling **200-300 media files** with **95% reliability**.
- Reduced development time by **30%** using reusable components and state management (BLoC, Provider, Riverpod).

Freelance Flutter Developer **Aug 2023 – Present**
Upwork.com, Freelancer.com (Remote)

- Completed **10+ projects** with **100% client satisfaction**.
- Published **3+ apps** on Play Store/App Store, gaining **5,000+ downloads**.
- Built full-stack apps using **Flutter**, **BLoC**, **PHP**, and **Python**.
- Optimized database operations with **Firebase**, **Supabase**, **MySQL**, and **MongoDB**.

Projects

Molto Vino **Jul 2024 – Present**
Technologies: Flutter, Dart, GoRouter, Bloc, GetIt, Dio, HTTP

- Refactored app with **Clean Architecture**, **GoRouter**, **Bloc**, and **GetIt** for scalability.
- Enabled secure payments and **automated wine dispensers** using **Dio/HTTP**.

Safe Pak **Apr 2025 – May 2025**
Technologies: Flutter, Supabase, Bloc/Cubit, GoRouter, Clean Architecture

- Built a public safety app for crime reporting, SOS alerts, and legal guidance via AI chatbot.
- Used **Clean Architecture**, **Supabase**, **Bloc/Cubit**, and **GoRouter** for scalability.

Chat Caller App **Mar 2024 – May 2024**
Technologies: Flutter, Firebase, Bloc, WebRTC, Dart

- Developed audio/video calling app with **WebRTC** and **Firebase**.
- Used **Clean Architecture**, **Cubit (BLoC)**, and **AdMob** for revenue.

Skills

Language/Framework: Flutter, Dart, JavaScript, React, Python, Node.js, PHP

Databases: Firebase, MySQL, PostgreSQL, MongoDB

Others: WebRTC, Clean Architecture, MVC, MVVM, Dependency Injection
